Project Title	Connect Ma Wan Chung - Co-create our Virtual Interactive Conservation Platform
Project Description*	<p>Ma Wan Chung Village is a fishing village with rich history. It was the economic lifeline of Lantau Island in the past. Due to the limited development of the area throughout the past years, the nearby monuments and traditional customs have been preserved, such as stilt houses, a temple, forts and a Kiln can still be found.</p> <p>The project aims at promoting district revitalization and cultural inheritance in Ma Wan Chung. It studies the living history and carrying capacity of the area, and co-create sustainable development and conservation solutions with local residents. A "virtual public space" will be established by end of this project to collect and showcase the humanistic stories of the Tung Chung Bay area through diverse multimedia. There will also be a series of interactive public engagement programs to make good use of the local living cultural assets and connect people and the place. It will thus bring opportunities for the development of the North Lantau Recreation Corridor.</p>
