

## MINOR LOCAL IMPROVEMENT WORKS

<b>Project Department:</b>	Water Supplies Department
<b>Project Title:</b>	Water Supply to Remote Village - Tai Long, Chi Ma Wan Peninsula, South Lantau
<b>Project Brief:</b>	<p>The existing natural stream course in Tai Long is an important habitat for aquatic life, including fireflies. Fireflies are highly sensitive towards environment. Villagers and visitors during weekends / holidays rely on the existing natural stream course in Tai Long for water supply. The project not only aims to safeguard the natural environment and ecological value (e.g. conservation of fireflies) of the existing natural stream course, but also enhance livelihood of the villagers by providing a reliable and clean fresh water supply including construction of fresh water mains, pump house and tank.</p>
<b>Project Status:</b>	Substantially completed.

### Project Layout Plan:

部門：水務署

工程項目名稱：鄉村供水計劃 - 南大嶼山芝麻灣半島大浪

工程項目簡介：大浪的天然河溪是水生生物的主要棲息地，包括螢火蟲。螢火蟲對環境高度敏感。村民和週末/假日的遊客依賴大浪現有的天然河溪提供水源。本工程項目旨在透過提供可靠及潔淨的食水供應，包括興建食水管，抽水站及食水缸，令該河溪維持天然環境和生態價值（如保育螢火蟲）之餘，亦可改善村民的生活。

工程概況：大致完成。
